What I Know About My Robots

Name ____________________________    Date ________________

You, and your team, just built several robots that sense and act. Draw a sketch of one of your robots and use these words to label your drawing. You may also add other words of your choice on your drawing.

Sense    Act    Input    Output    Behavior    Battery

Describe what you think your robot is thinking when you turn on the battery. Use words and/or images.
